 MG-6M approx. 6m , MG-7M approx. 7m
- Connector : SO-239 (M-Female) / Magnet base, PL-259 (M-male) / detachable connector

#### ◆ Attached accessory

### 【How to use】

1. Clean the surface where the magnetic mount will be placed. A clear sticker is included to protect the vehicle paint.
2. Carefully and gently place the magnet mount in place.
- ※ This product might damage the vehicle when directly mounted on it. Use the attached clear sticker for protection.
3. Using the supplied cable sticker, fix the antenna cable.
4. Carefully feed the antenna cable into your vehicle through either the door or the trunk-lid.
5. When an antenna is not installed, place the water-proof cap on the antenna connector.

### 【Note】

- To remove the magnet mount from the vehicle, do not slide the magnet mount to avoid scratching. Do not pull on the coax cable.
- Do not place any foreign obstacles such as a vinyl sheet or a cloth between the magnet mount and your vehicle. This may cause magnet to fall off while your driving.
- For your safety, we recommend to use a mobile antenna shorter than 1m (3.3 feet).
- Drive carefully not to hit any obstacles such as trees with the antenna.
- Installing of this mobile mount permanently may discolor your vehicle's paint. Remove the magnet mount from the vehicle when not in use.
